Alder BioPharmaceuticals to Host Conference Call to Discuss Second Quarter 2014 Financial and Operating Results

BOTHELL, Wash., July 29, 2014 (GLOBE NEWSWIRE) -- Alder BioPharmaceuticals, Inc. ("Alder") (Nasdaq:ALDR), a clinical-stage biopharmaceutical company developing monoclonal antibody therapeutics for the treatment of migraine, autoimmune and inflammatory diseases, today announced that it will report its second quarter 2014 financial and operating results after the close of U.S. financial markets on Tuesday, August 5, 2014. Alder management will host a conference call and live audio webcast at 5:00 p.m. EDT the same day.

The live call may be accessed by dialing (877) 430-4657 for domestic callers or (484) 756-4339 for international callers, and providing conference ID number 75560725. The webcast will be broadcast live on the investors section of Alder's website at www.alderbio.com and will be available for replay following the call for 30 days.

About Alder BioPharmaceuticals

Alder BioPharmaceuticals, Inc. is a clinical-stage biopharmaceutical company that discovers, develops and seeks to commercialize therapeutic antibodies with the potential to meaningfully transform current treatment paradigms. Alder's wholly-owned therapeutic program, an investigational monoclonal antibody for migraine, ALD403, inhibits a well-validated molecule shown to trigger migraine attacks, calcitonin gene-related peptide (CGRP), and is now undergoing clinical testing. Alder plans to advance ALD403 into a Phase 2b trial in the second half of 2014. Clazakizumab, previously known as ALD518, is Alder's investigational monoclonal antibody to the pro-inflammatory cytokine IL-6. Bristol-Myers Squibb is investigating Clazakizumab (as BMS-945429) in a Phase 2b clinical study in rheumatoid arthritis and other autoimmune indications based on a 2009 partnership. Alder's management team combines decades of industry experience with a proven track record for identifying and developing novel antibody therapeutics and enabling partners through the out-licensing of its technologies.
